GEDA 3700 Z/ZP

The GEDA 3700 Z/ZP transport platform fully meets the market requirements for higher load capacities and larger platforms. Four different platform variants with a maximum load capacity of 3700 kg allow the transport platform to be used in a wide range of on-site conditions. As a material hoist with a load capacity of up to 3700 kg or as a transport platform for passengers and materials (max. seven people), the GEDA 3700 Z/ZP is a two-in-one-device.

The transport platform is a strong partner for heavy loads and efficient working and transports loads quickly and safely up to a height of 200 metres, with a speed of 12 m/min in passenger mode and 24 m/min in material mode.

The most important benefit of the GEDA 3700 Z/ZP, however, is the large platform. The four different variants with different load capacities are particularly suitable for transporting very bulky and heavy goods.
